ABU DHABI

DUBAI

A B O U T U S

Here at **BravaCasa** we look at doing business differently.

While we're passionate about delivering a flawless service and work , our number one priority is honouring human being and humanity. In other words, we want to build character, not just decorations.

We work to encourage a Godly lifestyle among all those with whom we come into contact — our employees and their families, our customers, and our vendors. We hope to develop Godly leaders, people who take their leadership seriously both at home and in the workplace.

The principles taught by the wisest scientists, are those we try to live by today, and we encourage others to do the same. Following those principles, we are committed to providing a safe and healthy workplace to build our products — products that our customers will use to enjoy God's world in their own places & backyards as they develop lasting relationships with family and friends.

We build our decorations to endure for a lifetime; we strive to build people who will last for a joyful eternity. We believe that honesty & professionalism is truly the focal point of this life.

Because of that, we've made it the foundation for everything we do here at **BravaCasa**.

VISION

OUR

We work to encourage a Godly lifestyle among all those with whom we come into contact — our employees and their families, our customers, and our vendors

& B u i l d

Beauty is not
created by adding
one more detail, it
is conceived by
removing the last.

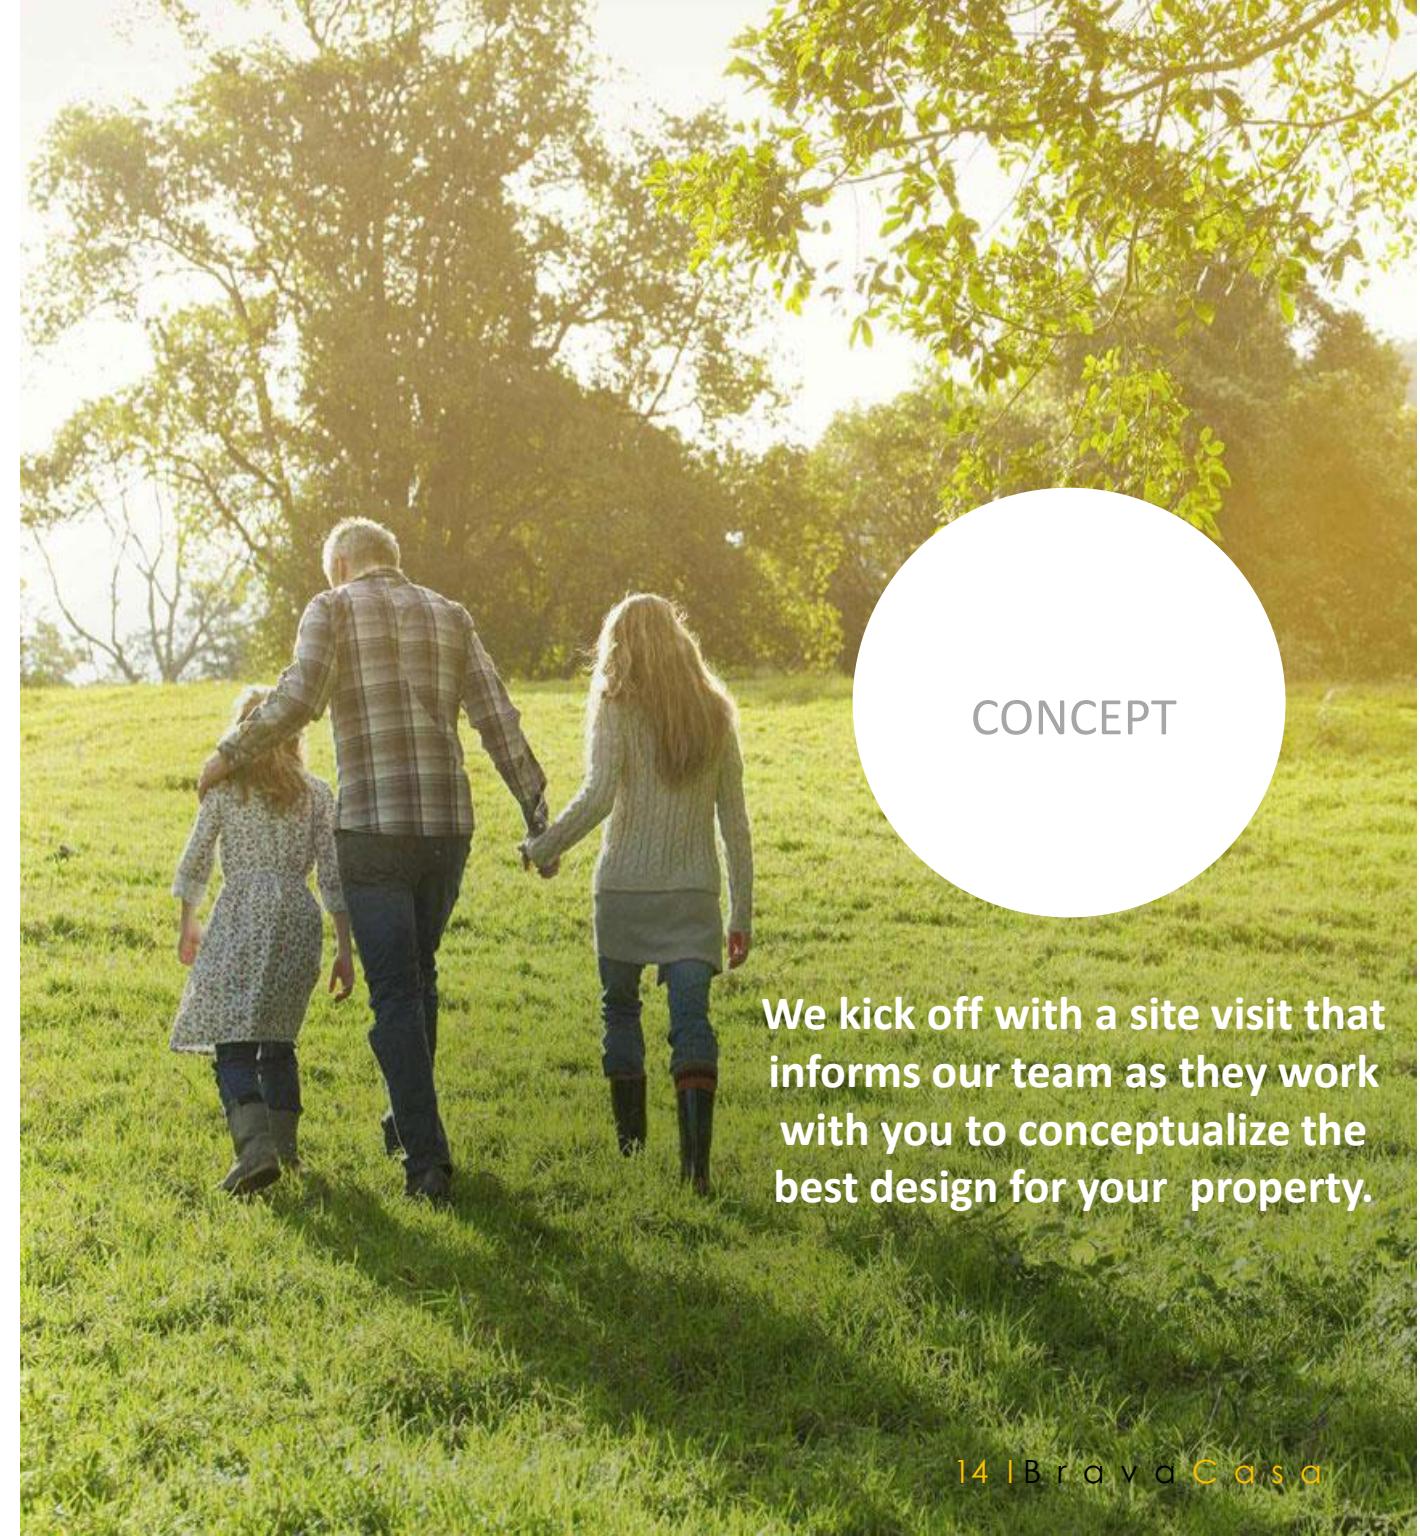

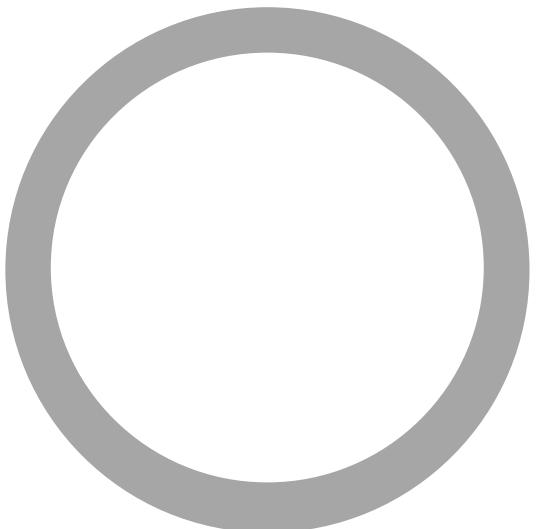

We believe that designing your project should be an easy and rewarding collaboration from start to finish. So follow an end-to-end approach which sets us apart from traditional design methods and keeps us inline with our vision through out the design and build phases.

PROJECT D15-019 – DUBAI – PRIVATE OFFICE

PROCESS

You have the perfect property. **BravaCasa** builds premium, healthy, green beautifully-designed venues. To blend the two into a successful project, it takes a comprehensive site design & development process.

CONCEPT PHASE INCLUDES

1

BRIEFING

We'll send out our team to listen to your requirement and compare it with the challenges of the site and how best to deliver your design based on an in-depth site review.

CONCEPTUAL DESIGN

Our team will work with you to review your budget and finalize your layout to create conceptual plans. Based on these plans, we can provide a project estimate and timeline.

MOODS

Our team will suggest the theme and the mood of your design and give you the chance to comment and compare with budget.

DESIGN & CONSTRUCTION PHASE INCLUDES

1

3D Visualization

The design is realized. The client can see how the final design will look like.

2

WORKING DRAWINGS

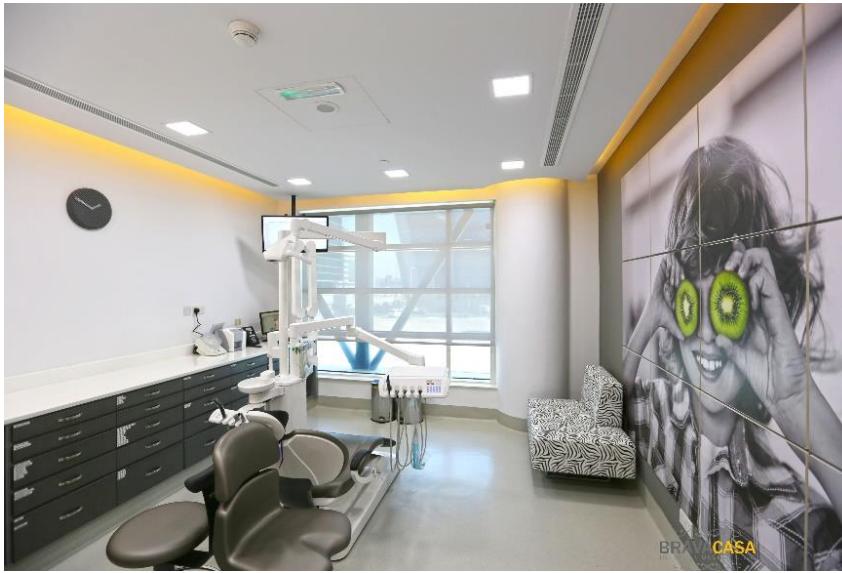

After confirming everything and getting approvals working drawings will be produced to commence construction..

3

BUILD UP

After all approvals and confirmations, work will start to realize the artistic work that was done.

Abu Dhabi Police GTQ
Project A18-090 – ABU DHABI

The design was created in a symmetric way to reflect discipline in the field of the police.

The ceiling design reflects discipline and modernism. And spreads all the way between two sides to reflect vision.

VISION OF LEADERSHIP BRIDGE TO OFFICERS

This wall was dedicated to showcase the rulers portraits. This wall connects the wall behind the officer via the ceiling.
